- 22) The word "Byelaws" may be used throughout including the heading instead of 'rules'
- 23) Byelaw 15 speaks of subsidiary rule issued by the Municipality. It evidently means instructions and the word rule is likely to be misleading
- 24) Section 48 of the Town Municipalities Act permits the imposition of a fine not exceeding Rs 500 for infringement of any byelaw. Byelaw 76 of the draft Byelaws seeks to provide a penalty of Rs 500 and a further fine of Rs 100 for every day after conviction during which a contravention continues. The latter provision for continuing breaches appears to be beyond the limit of section 48 and may have to be deleted.
- 25) Similarly and for the same reason the last paragraph of Byelaw 82 providing for recovery of dues as an area of land revenue is bad and may have to be omitted.
- 26) Subject to these changes, the Byelaws appear to be in order and may be approved.

27) The details set out herein and the rates proposed to be charged are matters for the advice section to examine

Letter No L 7649/Hl 70-38-99, dated 23rd March 1939, from the Secretary to Government of His Highness the Maharaja of Mysore, Local Self-Government Department, to the Deputy Commissioner, Chitaldrug District

With reference to your letter No A6 C 1833/38-39 dated the 28th November 1938 forwarding the revised draft bye-laws for the regulation of water supply framed by the Davangere Town Municipal Council, I am directed to observe that it is not quite clear (1) how these rules are an improvement over those in force at present, and (2) why in ~~an~~ many of the bye-laws the Municipal Engineer who is a subordinate of the Municipal Council and who should be authorized either by the Council or the President to exercise certain powers, has been made the sole authority for taking action

2 Further, the bye-laws are also defective as some of them are vague and indefinite and their wording is loose some of them are also ~~ulteravires~~ and contain repetitions They have also to be arranged logically

3 A statement showing the existing bye-laws and the proposed bye-laws in juxta-position, with reasons for proposing the revision in the case of each bye-laws may also be kindly submitted for the orders of Government

The records accompany for reference and retransmission

13

Letter No A6 C 1833/38-39, dated 26th November-1938,
from the Deputy Commissioner, Chitaldrug District, to the
Secretary to Government, Local Self-Government Department,
Bangalore

Subject - Adoption of the revised water supply bye-laws
framed by the Davangere town Municipal Council
in supersession of the existing bye-laws

In forwarding herewith the entire file of records
received from the President, Town Municipal Council, Davangere,
ending with his letter No G C 11/38-39 dated 22nd October 1938
(vide copy enclosed) on the subject noted above, I have the
honour to state that the existing water supply byelaws of the
Davangere Water Supply were sanctioned by Government in their
Order Nos R 13022 Ml 53-18-5 dated 17th May 1920 and No L 2100
I B 69-23-13 dated 2nd September 1923

The President, Town Municipal Council, Davangere, states
that a draft set of revised water supply byelaws^{was} prepared and
published by the Municipal Council in the town and in the Mysore
Gazette calling for objections or suggestions from the public
with regard to the adoption of the revised byelaws. He adds
that the only representation received in the matter was placed
before the Municipal Council at its meeting held on 21st Sept.
1938 for consideration when it was resolved that the byelaws
as amended in the standing committee may be sent to Government
for sanction. A copy of the resolution of the Municipal Council
passed in the matter together with the petition received are
enclosed in the file for kind reference. The President requests
that sanction of Government for adopting the revised water supply
byelaws may be obtained.

In the circumstances, I request that sanction of Government
may kindly be obtained to adopt the revised water supply byelaws
(framed by the Davangere Town Municipal Council) for the regula-
tion of water supply and prevention of waste and contamination
of misuse of water in Davangere town.

SPH

RULES FOR THE REGULATION OF WATER SUPPLY
IN DAVANAGERE TO 17

2 /

1 These rules shall be called the Davanagere
Town Water Supply Rules

2 In these rules unless there is something re-
pugnant in the subject or context -

Definitions -

(i) "Department" shall mean the Municipality and
shall include the President working with the Municipal
Council

(ii) "Authorised Officer" shall mean the Municipal
Engineer in charge of the Davanagere Town Water Supply
and works connected therewith or any other officer
authorised by the President

(iii) "Consumer" shall mean any corporate body, person
or persons consuming water, supplied by the Department
and shall include the owner of such premises as are
supplied with water from the Department

(iv) "Licensed Plumber" hereinafter called "Plumber"
shall mean any person engaged in pipe laying and fitting
and licensed by the Department under the rules framed
by it in this behalf

(v) "Premises" shall mean any house or building
(inclusive of the grounds attached thereto) or its part
or any tenement thereof in respect of which water is
supplied or applied for

(vi) "The Departmental stop cock or valve" shall
mean the gland cock or valve fixed outside the premises
and supplied by the owner but operated by the Depart-
ment

(vii) "Supply Pipe" shall mean that portion of the
the pipe line between the Departmental stop valve
nearest the main and the entrance to the premises

(viii)

(viii) "Communication Pipe" shall mean that portion of the pipe line between the main and the Departmental stop valve

(ix) "Service Pipe" shall mean that portion of the pipe line laid within the premises

(x) "Storage Cistern" shall mean any cistern for containing the Departmentally supplied water but shall not include a cistern for storing hot water or water for flushing or other sanitary needs

3 The Municipality shall be responsible for all work connected with the supply of water to the town of Davanagere

Purposes of
supply of
water

4 The supply of water under these rules is intended ordinarily for 'bonafide' domestic purposes and the water so supplied shall not be used for any other purpose without the previous permission in writing from the President

A supply for "bonafide domestic purposes" shall mean a supply made to dwelling or residential quarters for drinking, cooking and bathing and such other domestic purposes, and shall not include a supply for houses or washing carriages, or a supply to any of the non-domestic concerns mentioned as below -

All institutions of an Industrial, Commercial or Business nature and also Coffee Clubs, Restaurants, Piffin Rooms, Hotels, Theatres, Clubs of Recreation, Dairy Farms, Motor Garages, stables, etc., used for hire or business, nurseries, fruit or flower gardens and all premises where construction, alteration of buildings are going on, and all premises which are taxed by the Municipality at rates other than those for dwelling houses, shall be treated as non-domestic for the purposes of these rules

5 No water cart or lorry shall take water from public fountains installed for bonafide domestic purposes Water may be drawn for watering public roads, flushing drains and other municipal purposes from public fountains and connections separately

provided

provided for the purpose at the cost of the Municipal Council

6 The President may, subject to the conditions to be determined by the Municipal Council in this behalf, supply water for other than domestic purposes

Installation and
Removal of public
fountains

7 Public fountains shall ordinarily be located at distances of not less than 600 feet apart. The President may remove or close or shift the public fountains in consultation with the Municipal Council

The President or the Authorised Officer may close temporarily any public fountain found to be misused or contaminated

Erection of
public fountains
by private
donors

8 Private individuals may be allowed to erect public street fountains for dedication to public use on the following conditions -

(i) That their number is strictly restricted to bonafide public requirements of particular localities which shall be decided by the Municipal Council

(ii) That they shall be subject to the same conditions as are applicable to other municipal public fountains

(iii) That their maintenance and repair costs shall be borne by the Municipality in the absence of any specific donor

(iv) That they are not placed close to any other public fountain at a distance of not less than 600 feet and

(v) That their free and unobstructed use by the public for domestic purposes be duly safeguarded and no special privilege be claimed by the donor

Applications
for House Con-
nections

9 The owner or consumer shall make an application for water connection in the form prescribed by the Department to the Authorised Officer through a licensed plumber. The application shall be accompanied by a certificate of ownership of the house, the municipal assessment receipt, a detail estimate of cost of connections and sketches of

25

several houses in the compound and the details of layout of the pipe service in relation not only to the Departmental distribution lines running closeby, but also to the public and private drains etc

10 He shall also deposit with the Municipality the cost of attachment from the public main at the following rates

1" attachment	Rs 4/-
$\frac{3}{4}$ " attachment	Rs 3/-
$\frac{1}{2}$ " attachment	Rs 2/-

Applications for non-domestic connections ✓

11 Every application for a non-domestic water connection shall be accompanied by a deposit of not less than Rs 20/- the actual amount being determined by the department in each case, in addition to the usual costs of attachment, road boxes etc, to serve as an advance. The deposit shall be refunded to the depositor on demand after settling his accounts. Such deposits should be taken in the case of existing non-domestic connections also

Plumbers register of house connections ✓

12 The plumber shall maintain a register of such applications sanctioned and completed and shall submit the same before the 5th of each month to the Authorised Officer

Plumber's notice for giving connection

13 The plumber executing the work shall give at least two days notice to the Authorised Officer for getting connection with the Departmental distribution line

Service connections by whom given

14 The service connection shall be given by the Authorised Officer or his subordinate empowered by him in this behalf, in the presence of the plumber and the consumer or owner

Connections to mains

15 Such connection with the departmental public main shall be in accordance with the subsidiary rules issued from time to time by the department in this behalf

16 The work shall not be commenced until after the departmental approval is communicated in writing to

the

the consumer or owner, through the concerned licensed plumber

Quality of pipes and fittings

17 No person shall, for the purpose of conveying delivering, receiving or using the water supplied by the department, fit, or use any pipe, tap, valve, cock, cistern or any other water fittings or sanitary appliances which shall not be of the quality and strength prescribed by the department. No consumer or owner shall be entitled for the supply of water unless and until such pipes and fittings and the laying and fixing thereof are approved by the Authorised Officer

Rates for materials and work

18 A schedule of rates chargeable for the materials and for the execution of work as in force at the time shall be kept by the department for the information of consumers or owners

Specifications prescribed

✓ 19 The department may by subsidiary rules prescribe the size, nature, materials, workmanship, strength and mode of arrangement, connection, disconnection, alteration, and repair of pipes, meters, cocks, ferrules, valves, soil pans, water closets, baths, cisterns, and other apparatus and forbid any arrangements and use of any water fittings which may allow or tend to allow any waste, undue consumption, misuse, erroneous measurement or contamination

20 In cases where the consumer or owner applies for extension of the existing connections, he shall not be required to alter or renew the fittings existing on the date of application unless in the opinion of the Authorised Officer they are so defective or located in such a position as to cause or likely to cause obstruction to the water supplied by the department or result in waste undue consumption, misuse or contamination of the water

Communication pipe

✓ 21 No premises which has been separately assessed to Municipal tax, shall, except with the special permission in writing of the President, be supplied with water by more than one communication pipe

26

Conditions for a ✓
pipe connection

22 Every separately assessed domestic premises shall be entitled to have its own separate communication pipe provided the building tax is not less than Rs 5/- → Rs 3/- subject, however, to the capacity and the pressure of the distribution submain nearest to the premises permitting the grant of such connection

Connection from
nearest distributed
line

23 The water connection shall, as a general rule, be taken from the nearest distribution line feeding the locality wherein the premises is situated Special connections from other submains shall be subject to the express orders of the President

24 The President or the Authorised Officer may, if at any time he deems it necessary in the interests of the Town water supply, to alter the position of an existing connection with any public main or of the communication pipes or fittings thereof, direct such alteration after giving not less than two days' notice in writing to the person concerned The cost of all such alterations upto the departmental stop valve shall be borne by the department

25 Except under a written agreement with the department and subject to its conditions, no consumer shall fix, fit or use on any premises any self-acting sanitary or other outfit on the departmental water supply service line Such a connection may not be granted by the department except when conditions of supply admit such extra consumption in the opinion of the President

Accessibility of ✓
pipes and fittings

26 Every pipe or fitting within a building shall, as far as practicable, be so placed as to admit of easy access, examination, repair or renewal

Departmental
stop cock
supply line

27 Every connection shall have just outside the premises and in an easily accessible position, a valve or gland cock of the approved pattern with a minimum diameter of $\frac{1}{2}$ " and not more than the diameter of the supply pipe This valve or cock shall be supplied by the

the consumer. Such valve or cock if below the ground level, shall, in every instance, be suitably protected by a surface box of the approved pattern supplied to the consumer by the department at the consumer's cost.

Every such gland cock shall be provided with a detachable checknut union joint near to it for facility of connecting or disconnecting service. In the case of existing services, where the original gland cocks are either far away from the premises or otherwise inaccessible, separate additional gland cocks and check-nut joints shall be provided by the consumer, when and where required by the Authorised Officer.

Communication and ✓
other pipes not to
be laid through
unsanitary
places

28. No communication or other pipe shall be laid so as to pass into or through any sewer, drain, latrine manhole, or ash pit or manure pit. Such pipe shall not be allowed to remain in contact with any foul smelling or injurious materials. In unavoidable cases adequate protection to the pipe shall invariably be provided by carrying it through an exterior cast iron tube or in any other suitable manner approved by the President or the Authorised Officer.

Depth of pipes ✓
underground

29. Pipes laid in open ground shall be at least 1½' below the ground level.

30. Pipes intended to carry water supplied by the department shall not be allowed to carry water supplied from any other source.

Storage
cisterns ✓

31. In every case where the water is to be supplied to a storage cistern, a suitable control valve for closing the inlet shall be provided.

32. A cistern buried or excavated in the ground shall be provided with a reflux valve to prevent the back flow of the water to the pipe line and shall be so constructed as to ensure the water-tightness as well as the imperviousness of the cistern to outside contamination. The

Authorised

Authorised Officer may inspect and cut off the service to such a cistern whenever contamination or misuse or any defect in construction is noticed

33 Unless otherwise specially authorised, no consumer shall be allowed to take water through any boiler, water closet or sanitary appliances, except from a storage cistern of the approved specification

Removal or alteration or extension of pipes ✓

34 The owner or consumer, shall before starting the removal or alteration or extension of any pipe, give not less than fifteen days' notice thereof to the Authorised Officer and deliver an application through a duly licensed plumber in the form prescribed by the department

Only licensed plumbers to execute works ✓

35 All water connections or alterations or extensions or repairs to any water connection shall be done by departmental agency or by licensed plumbers

Meters

✱ 36 For every house connection there shall be provided at the cost of the Municipality and maintained in due working order, a water meter for accurate gauging of the water consumed, provided that the President or the Authorised Officer may dispense with such meters in the case of premises which, in the opinion of the department are not likely to consume more than the free allowance to be granted thereto

For connections to premises which in the opinion of the department are not likely to consume more water than the free allowance to be granted thereto and consequently the meter is dispensed with, the number of taps for $\frac{1}{2}$ " and $\frac{3}{4}$ " connections shall be restricted to only two

37 For every meter installed by the Municipality to a premises and kept in working condition, the following rates of meter rent shall be levied per month in addition to whatsoever charge may be due from the water consumed, provided that for the period when the meter is out of order

no such rent shall be charged

	Rs	as	ps
$\frac{1}{2}$ ", $\frac{3}{4}$ ", and 1" meter	0	4	0 ✓
1 $\frac{1}{4}$ "	0	8	0
1 $\frac{1}{2}$ "	0	11	0
2 $\frac{1}{2}$ "	1	12	0
2 $\frac{1}{2}$ "	2	5	0
3"	2	8	0

38 The meter shall, whenever practicable, be placed inside the premises of the consumer, who shall be held responsible for any damage or tampering with the meter. He shall be liable to pay the cost of making good such damages and to the penalty hereinafter ^{imposed} ~~imposed~~ in Rule 71.

The President may, subject to an appeal to the Municipal Council, assess the damages caused and recover the same in the manner prescribed for the recovery of other charges.

Meter reading

39 The meters shall be read between the 20th and the end of the month generally between the hours of 7.30 A.M. and 4.30 P.M. and recorded on meter cards hung in any safe and prominent portion of the house. The consumer shall be responsible for the safety of the cards.

Disputes about meter reading

40 Protests or disputes connected with meter readings shall be lodged within fifteen days after the monthly readings are recorded on the meter card mounted in the premises. No complaints received after this period shall be entertained.

Testing of meters

41 Any person disputing the accuracy of the meter may apply to the President or the authorised Officer who shall, on payment of a fee of rupee one per test, direct the testing of the meter. If, on actual test, the quantity registered by the meter is in excess of the correct quantity by more than five percent, the testing fee shall be refunded, and a proportionate rebate shall

be allowed for the month in question and the modified bill paid for as per rules. No rebate shall be allowed ~~if~~ ^{for} the excess is five percent and below, and the testing fee shall not also be refunded.

✓ 42 The Department reserves to itself the right to make its own tests, free of cost, at any time after giving due notice of the same to the consumer.

✓ 43 If, on examination, any meter is found to be out of order, the consumption during the period since the last reading till the meter is repaired or a new meter installed, shall be calculated at the average daily consumption of the last six months during which, in the opinion of the President or the Authorised Officer, the meter was recording properly and the consumption of water was not for any reason abnormal.

Free allowance of
 water

✓ 44 In no case shall free allowance be less than 2,000 gallons or more than 5,000 gallons per month.

The same rates shall apply to Government buildings used for residential purposes.

✓ 45 In the case of new premises, free allowance shall be granted from the date the Municipal assessment has effect, provided that the construction work is over and the premises is used for bonafide domestic purposes. In the absence of the Municipal receipt for payment of assessment, the minimum free allowance fixed under these rules shall be allowed, provided that the construction work is over and the house or premises is occupied for domestic purposes. The correct free allowance shall be granted only on production of the said municipal receipt. But, in no case, shall free allowance be granted for the period not covered by Municipal Assessment.

46 Applications for modifications in the quantity of free allowance allowed by the department to any premises and noted on the bill sent every month shall be made within 15 days from the date of the bill. No complaint received after

after this period shall be entertained

Same premises
with separate
consumers

47 Whenever the Municipal Council assesses a premises separately, the department may give a separate connection thereto. But where more than one building is existing on the same premises occupied by different consumers but under a single assessment, no separate free allowance shall be given to each such undivided building.

Several houses
supplied by one ✓
pipe No L 9642-
L1 70-38-125
dated 2nd June
1939

48(a) In the case of blocks of houses situated in one and the same compound and separately assessed by the municipality and having only one water supply connection, where conditions do not admit of giving separate water supply connections on account of insufficiency of main etc the total tax on the houses shall be taken into consideration for purposes of calculating free allowance, subject however to the minimum of 2,000 gallons and maximum of 5,000 gallons.

(b) In the case of a house the assessment of which has been split up by the Municipality thereby entitling the owner to a separate water connection to each such sub-assessed house, it shall be incumbent on the owner to apply for a separate water connection to each subassessed house, and where conditions do not permit of separate connections being given, due to insufficiency of main etc, the free allowance shall be calculated on the total house tax as a whole, and not on the independent house tax of each such subassessed house in the block.

49 In the case of premises used partly for domestic and partly for any of the non-domestic purposes, the President shall decide the portion of the premises eligible for free allowance and fix the quantity thereof. An appeal shall lie, against the decision of the President to the Municipal Council, whose decision shall be final.

50 Any consumer who uses water in any month in excess of

Excess water
charges

of the free allowance, shall pay for such excess at the rate of 8 annas for every 1,000 gallons so consumed -- Fractions of 1,000 gallons shall not be charged for, if it is 500 gallons or less, but the excess shall be charged as if it were 1,000 gallons if it exceeds 500 gallons

51 Non-domestic concerns shall not be entitled to free allowance of water. All water supplied to such premises shall be charged for at annas eight for every 1,000 gallons *there* consumed, together with the meter rent

In the event of meters being not available for non-domestic concerns the President, may in special cases, sanction a $\frac{1}{2}$ " attachment temporarily at a flat rate of Rs. 1/- per month

52 The excess water charges, meter rent and other charges due under these rules shall be paid at the Office of the President monthly on bills which shall be sent to the party before the 5th of the succeeding month. The payment shall be made before the 20th of that month including arrears if any. On failure of such payment, the department reserves the right to cut off water to the premises

53 Payments claimed by the department even in some cases of dispute shall be made within the specified time, subject to the grant of a refund later on, after final decision by the department

Payment by consumer or owner

54 All money due for water consumed, meter rent or other charges under these rules shall be payable by the consumer or on his default by the owner

55 Whenever a person ceases to occupy the premises supplied with water or to use the water he shall send a written notice to the Authorised Officer. In case of his failure to do so, the department may proceed against the person or the owner to recover any charges that may become due including those for excess consumption, or wastages, occurring during the period of non-attention to the Authorised Officer

shall immediately give ~~immediate~~ notice to the office of the Authorised Officer or to the water service stations so as to enable necessary action being taken temporarily to arrest the wastage with the help of the departmental staff. The subsequent repairs can be effected through the licensed plumber after duly intimating to the authorised officer, the details thereof

61 In cases of neglect or unwarranted delay to report wastage, under the above rule, the President or the Authorised Officer may cut off the water connection without notice and follow it ~~up~~ with an official notice to the consumer or the owner

62 The connection shall not be restored until the defects of leakage etc, are satisfactorily restored. Bill of cost for such immediate repairs executed by the departmental agency will be sent to the party who has to pay the same

Power to cut off connections ✓

63 The President or the Authorised Officer shall have power to cut off the connection between the supply and communication pipes in any one of the following cases, provided that a reasonable written notice showing the specific cause or causes is given in advance, such notice being posted on the houses or premises in case of consumer is not accessible

(a) In default of payment of excess water charges, meter rents or any other charges due under these rules which have been duly demanded previously through bills issued from the office of the authorised officer

(b) If any consumer violates any of the conditions on which the connection has been granted to the premises in question, resulting in the misuse of such water

(c) In case of leakage through pipes or other fittings or any defective or insanitary condition of the same

(d) In case of allowing wastage of water even after the issue of a warning in advance

(e) In case of broken pipes or fittings causing or

likely

likely to cause heavy loss of water or damage to property

(f) In the case of refusal to allow the President or the Authorised Officer to enter into any land or building for the purpose of inspecting or repairing or attending to any works connected with the water supply given to the premises

(g) In case of any person wilfully or unauthorisedly permitting any other person to take a connection from his supply

(h) In the case of contamination of water from a storage cistern (Rule 33)

64 The water supply cut off by the department, shall not be restored as long as the wrongful act or omission for which the supply was cut off continues, and a fee of Re 1/- shall be recovered as reconnecting charges while restoring service

Power to cut up
Municipal roads
drains and other
structures

65 The President or the Authorised Officer, may cut open any road for the purpose of laying new, or repairing the existing pipe lines. The President shall be responsible for bringing the portion so cut up to the normal level and hardness, and reconditioning the road, according to its original quality

66 In the case of municipal drains, structures and other property which may have to be removed, the department shall be responsible for their complete restoration

67 Whenever more than half the road width has to be opened out or any serious and prolonged obstruction to traffic is likely to be caused, the President or the Authorised Officer shall cause due notice to be given to the public. This rule shall not apply to cases of emergency occasioned by accidents, bursts on pipe lines, fire or other causes requiring immediate action on the part of the department

68 The President or the Authorised Officer shall have
power

power to stop or reduce the supply in any public main or submain for repairs or renewals without any notice on emergent occasions. But, in ordinary cases, when the stoppage is over an extensive area or is due to exigencies which can be foreseen, such previous notice as is possible under the circumstances shall be given by beat of drum or other means.

breaking up of
municipal pave-
ment, road or
other property
during pipe
laying

69 In every case, where the municipal pavement, drain road, manhole or other property is likely to be affected during the laying of the pipes for any premises, the consumer or on his behalf, the licensed plumbers, shall be responsible for giving sufficient notice thereof to the department. He shall be subject to the control, restrictions and obligations to the Municipal Council during the period of such work, including the liability for any penalties recoverable for delay, inconvenience and incomplete or unsatisfactory finishing of the works connected with the affected portions.

Removal of pipe
fittings by con-
sumer or owner

70 Any consumer or owner may get his pipes removed, provided he gives at least 15 days' notice through a licensed plumber to the President or the Authorised Officer. Every such consumer shall compensate the department for any injury or damage to the departmental pipe lines.

Use of water

71 The water supplied by the department shall be used only for the specific purposes permitted.

Any fittings and branch pipes for non-domestic use ~~for~~ on a domestic supply or vice versa or those which are out of use or otherwise defective, shall be removed and the connections properly sealed when required by the Authorised Officer. Should the consumer or the owner fail to comply with such requisition, the Authorised Officer may enter any house or premises and execute the required work, and the expenses thereof shall be recovered from the consumer or the owner in the same manner as other charges are recoverable

under

premises for measuring the consumption of water

(3) Having a supply of water for domestic purposes using such water for other than domestic purposes

(4) Having a connection for any specific non-domestic purpose, using it for any other purpose

(5) Obstructing the President or the Authorised Officer or member of his staff in the discharge of his duties under Rule 60

(6) Neglecting to report the wastage of water under Rule 62

(7) Removing pipes without notice to the President or the Authorised Officer

(8) Wilfully or unauthorisedly permitting any other person to take a connection from his supplies

(9) Unauthorisedly taking connection for water from the departmental public main or reservoir or a public fountain line

(10) Wilfully or carelessly breaking, injuring or tampering with any cistern, lock, meter, seal, valve, pipe, water cock, engine, or pump belonging to the department, or flushing or drawing off the water from the reservoirs or other works of the department

(11) Bathing in any stream or reservoir or other works connected with to a water supply or throwing any dog or other animal therein or any rubbish, dirt or filth, or washing or cleaning any cloth, wool, skin or vessels or animals, or carriages or vehicles, etc., or unauthorisedly connecting the service pipes with a sink or drain, or doing any act whereby the water is likely to be fouled

Applicability of rules to public institutions

77 The foregoing rules apply, mutatis mutandis to all public institutions, such as schools, colleges, hostels, hospitals, public offices, etc., the supply allowed in each case, free of charge being determined by the ^{—Council—}department and an excess used over and above the free supply as measured by the meters being paid for by the institutions concerned at the rates prescribed

78 In the case of Government buildings used for residential purposes, the excess water charges shall be recovered as under the rules applicable to the general rate-payers, from the occupier direct as a liability against him. In the case of his default, the Head of the department concerned under whose charge the building is left, shall recover the arrears.

79 In the case of charitable institutions in Davanagere Town duly recognised as such by the Municipal Council, the water supply connection shall be metered, free allowance granted on the probable rental value without ~~the~~ subjecting it to the maximum free allowance allowed in the case of ordinary buildings and excess water consumed over that charged at the concessional rate of four annas per 1,000 gallons, the water supplied to religious institutions, such as temples, mosques etc., and the burial and cremation grounds, however being entirely free of cost.

Supply to
Government
Institutions

80 In the case of Government Institutions which are not run on commercial or business or trade lines, the rates charged for water supplied shall be in accordance with Rule No 51 supra.

81 But when Government Institutions are in default or when the claims are disputed by them, the water supply shall not be cut off immediately but two months' time shall be given to refer the matter to the departmental head and obtain orders for recovery.

Should they continue to default even thereafter, the matter may be referred to the Secretary to Government, Public Works Department and arrangements made for recovery through the Comptroller.

Water supply
outside muni-
cipal limits

82 In case in which water supply is made to houses, premises, industrial concerns, etc., outside the municipal limits of Davanagere, these rules shall apply mutatis mutandis, except where such supply is controlled by a separate agreement with the department.

In

In cases in which water supply is made to any other municipality or village panchayat, such supply will be controlled by a separate agreement by the municipal council with the other municipal council or village panchayat under reference

No houses, premises, industrial concerns etc , outside municipal limits shall be eligible for any free allowance All water supplied shall be charged for at a rate of as Rs 0-8-0 per 1,000 gallons, except where otherwise provided for, under a separate agreement with the department

All arrears of water charges, meter rent and other charges due to the department shall be recoverable from the consumer as arrears of land revenue

Liability of the
department for
non-supply

83 Whether for domestic or for non-domestic purposes the department is not liable, in the absence of a contract to the contrary to any penalty or damages for not supplying water, if such non-supply arises from accidents to pipe lines, bursts, shut-down of power and unusual drought or other unavoidable causes beyond its control

84 The Municipal Council reserves to itself the power, whenever it deems fit, to alter or modify the foregoing rules, or to abolish altogether the system of house connections established thereunder, or to stop or to reduce the supply to any private attachment or any public fountain without assigning any reason whatsoever
